## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1 and 4-5 are allowed.
2. The following is an examiner's statement of reasons for allowance.

The prior art does not teach the hybrid vehicle as recited in claims 1 and 4-5, which include a transmission that has an input shaft joined coaxially to a crankshaft, an output shaft disposed in parallel to the input shaft, a drive member provide on the input shaft, and a driven member provided on the output shaft, and is capable of changing the gear ratio between the drive member and the driven member. The hybrid vehicle also includes a generator/motor that is disposed so as to surround the outer periphery of an axis of the input shaft at a position sandwiched between the engine and the transmission. The hybrid vehicle also includes power transmission means for transmitting the driving force of the generator/motor to any position of a power transmission pathway between the output shaft and a differential gear. The hybrid vehicle being capable of traveling by means of either one or both of the driving force of the engine and the driving force of the generator/motor; wherein the generator/motor is disposed coaxially with the axis. This recitation, in combination with the rest of the recited elements, clearly defines over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3618

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
